

On GitHub

Publish your repos as a GitHub Page/s.

If combining projects in one folder, ensure the root level folder has an index that links to subfolders, so they can be viewed in GitHub Pages.

1. MyFirstWebsite- Optional

2. Balloons- with

- Semantic elements
- Responsive design with media queries
- Transition
- Animation
- Canvas / SVG / WebGL
- Contact form – validated with HTML & CSS
- Pull/Fetch data from file
